THE GREAT GREEN OUTDOORS

Cape Town is definitively Green by Design. Our city is one of a few in the world with a national park and two World Heritage Sites (Table Mountain National Park and Robben Island) contained within its boundaries. The Mother City is located in a biodiversity hot spot, the Cape Floristic Region, and is recognised globally for its extraordinarily rich and diverse fauna and flora.

Discover and experience Cape Town's natural beauty and enjoy its great outdoor lifestyle choices.

Explore Cape Town's national parks, nature reserves, conservation areas, recreational parks and gardens that together are conserving critically endangered ecosystems. This globally important biodiversity is a valuable part of our heritage and also plays an important role in underpinning a healthy and sustainable urban environment.

CITY OF CAPE TOWN

WORLD DESIGN CAPITAL CAPE TOWN 2014

World Design Capital (WDC) is a biannual honour awarded by the International Council for Societies of Industrial Design (ICSID), to one city across the globe, to show its commitment to using design as a social, cultural and economic development tool.

Cape Town Green Map is proud to have been included in the WDC 2014 Bid Book, and played host to the International ICSID judges visiting the city.

Design-led thinking has the potential to improve life, which is why Cape Town's World Design Capital 2014's over-arching theme is 'Live Design. Transform Life.'

Our particular focus has become 'Green by Design' - projects and products where environmental, social and cultural impacts inform design and aim to transform life.

Green Map System accepted Cape Town's new category and icon, created by Design Infestation – the first addition since 2008 to their internationally recognised set of icons.
